

# WHITE HOUSE 1904

## All Officials Call on the President Formally

### It Is a Matter Of Form, a Bow, a Flash of Teeth, a Touch of the Fingers and--Next

### Starts at Midnight, Spend All New Years Day Returning 10 Seconds Later

Washington, D. C., Dec. 31.—Promptly on the stroke of midnight Uncle Sam will start a New Year greeting around the world. The army posts and naval stations of the United States in Hawaii, Guam, the Philippines, Porto Rico, Alaska and other parts of the world will receive the message, the sending of which is made possible by the completion of the Pacific cables and those in Alaska.

In less than ten seconds this salute will completely encircle the globe and return to the starting point—the white, towering naval observatory on Georgetown Heights. This, at least, is the calculation of Lieutenant-Commander Everett Hayden, the naval officer in charge of the observatory. The route of the message will be by telegraph to San Francisco and thence by way of the new Pacific cable to Honolulu, to Midway, to Guam, to Manila and to Hong Kong. Flashing up and down the entire eastern coast of Asia it will cross Siberia, it will be flashed to Moscow and St. Petersburg, and there be taken up by the thick mesh of wires covering northern and central Europe, passing London and at the same time spanning the coast of Africa. From Alexandria it will be shot 750 miles up the Nile into the very heart of the dark continent. Leaping out into the sea it will register itself in the isles of Madag. will register itself in the isles of Madagascar and over the Cape Verde islands it will jump to Pernambuco, Brazil, thence down into central Argentina and on into Bolivia, across the Windward Isles, the Lesser Antilles and the West Indies, and then home again to Washington.

Over 1,180,000 miles of wire and cable will be utilized in transmitting the message when the midnight signal reaches Chicago it will be an hour before the birth of the new year. Similarly it will be 10 o'clock when the signal flashes into Denver and the mountain belt towns and 9 o'clock when it reaches the Pacific coast. When the island of Midway is reached the clocks will register 6 p. m. Up to this point the message will be ahead of the new year, but as the island of Midway marks the international date line, where each new year is born, the instantaneous spark will be flashed into Guam at 3 p. m., New Year's day, while our soldiers in the Philippines will receive the greetings at about the hour they have finished their New Year dinner. At Calcutta and Ceylon it will be 11 a. m.; at Bombay, 10 a. m.; at Aden, 8 a. m.; at Rome 6 a. m.; in the Canary islands, 4 a. m.; in eastern Brazil 3 a. m., and so on back to Washington, all within the ten seconds following the midnight hour when the message was started on its way.

It is intended to receive both the outgoing and incoming signals on the same chronograph at the naval observatory, and thus preserve a permanent graphic record of both on a single sheet of paper. It is suggested that, besides demonstrating the possibilities of practical astronomy and telegraphy, working together through international co-operation, benefits will result from the general attention that it will direct to the advantages of the use of accurate standard time throughout the world.

Eugene Ware, pension commissioner, says if he ever moves away from Topeka, Kan., it will be to come to Portland, Or., to reside permanently.

### WASHING WITHOUT WATER

Is Like Trying to Get Rid of Dandruff Without Herpicide.  
Did you ever see any one trying to wash themselves without soap or water?  
If you did what would you say of him?  
It is every bit as foolish to try to get rid of dandruff and to prevent baldness by feeding the germs which cause it, with Cantharides, Yaseline, Glycerine and similar substances which form the principal ingredients of most so-called hair Vigors.  
Newb's Herpicide is successful because it attacks and kills the parasite germs which feed on the hair roots.  
It is the original and only genuine scalp germicide manufactured.  
Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.  
Daniel J. Fry, Special Agent.

## Consumption

Is a disease of civilization. When the Indian was a stranger to the white man he had no name in his vocabulary for this dreaded malady.

Without arguing as to the curability of consumption, it may be stated positively that Doctor Pierce's Golden Medical Discovery cures weak lungs, hemorrhages, bronchitis, deep-seated and stubborn cough, and other diseases which if neglected or unskillfully treated find a fatal termination in consumption. There is no alcohol in the "Discovery," and it is entirely free from opium, cocaine, and all other narcotics.

Persons suffering from chronic disease are invited to consult Dr. Pierce, by letter, free. All correspondence is conducted under the seal of sacred secrecy. Address Dr. R. V. Pierce, Buffalo, N. Y.

In a letter of thirty years, Dr. Pierce, assisted by his medical staff of nearly a score of physicians, has treated and cured thousands of men and women who had been given up as incurable by local physicians.

"Your medicine is the best I have ever taken," writes Mrs. Jennie Dugman, of Rapid City, Dakota Co., Mich. "Last spring I had a bad cough, got so bad I had to be in bed all the time. My husband thought I had consumption. He wanted me to get a doctor, but thought we would try Dr. Pierce's Golden Medical Discovery, and before I had taken one bottle the cough stopped and I have since had no sign of its returning."

Doctor Pierce's Pleasant Pellets cure constipation.

### Future Uses of Old Age.

(Success.)  
Our old men are going to be our future workers, if we are to credit a theory propounded in the recent work of Professor Eli Metchnikoff, of the Pasteur Institute in Paris. He reminds us that in the case of some of the most industrious of the lower creatures, such as ants, and bees, the workers are distinct from the breeders a third or neutral sex having been evolved by modification of one or both of the others. With man no neutral sex has appeared, but both sexes cease the world of reproduction at a fixed period in life. This, then, is the most favorable period for work, and when science has eliminated the infirmities of age, as Professor Metchnikoff believes it is now able, and soon will be able, to do, the aged will be the most vigorous and efficient toilers. This is paradoxical conclusion, and one that will hardly gain the consent of all physiologists.

### How's This?

We offer one hundred dollars reward for any case of catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Toledo, Ohio.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm.
